Specific extinguishing methods Use extinguishing measures that are appropriate to local circumstances and the surrounding environment,  
Use water spray to cool unopened containers.

Remove undamaged containers from fire area if it is safe to do so.  
Evacuate area.

Special protective equipment for fire-fighters      Wear self-contained breathing apparatus for firefighting if necessary.  
Use personal protective equipment.

## Section 6. Accidental Release Measures

Personal precautions, protective equipment and emergency procedures      Follow safe handling advice and personal protective equipment recommendations.

Environmental precautions      Discharge into the environment must be avoided. Prevent further leakage or spillage if safe to do so. Retain and dispose of contaminated wash water. Local authorities should be advised if significant spillages cannot be contained.

Methods and materials for containment and cleaning up      Soak up with inert absorbent material.  
For large spills, provide diking or other appropriate containment to keep material from spreading. If diked material can be pumped, store recovered material in appropriate container.  
Clean up remaining materials from spill with suitable absorbent.  
Local or national regulations may apply to releases and disposal of this material, as well as those materials and items employed in the cleanup of releases. You will need to determine which regulations are applicable.  
Sections 13 and 15 of this SDS provide information regarding certain local or national requirements.

## Section 7. Handling and Storage

Technical measures      See Engineering measures under EXPOSURE CONTROLS/PERSONAL PROTECTION section.

Local/total ventilation      Use only with adequate ventilation.

Advice on safe handling      Handle in accordance with good industrial hygiene and safety practice.  
Take care to prevent spills, waste and minimize release to the environment.

Conditions for safe storage      Keep in properly labeled containers.  
Store in accordance with the particular national regulations.

Materials to avoid      Do not store with the following product types:  
Strong oxidizing agents
